CITY MOVEMENT PRESENTATION

A large, diverse crowd of people is gathered outdoors, likely at a city festival or rally. Many people are looking upwards and have their hands raised in the air, suggesting they are participating in a song or cheering. The background shows city buildings, trees, and a traffic light. The image is dimmed to allow the text to be prominent.

What **problem** are we solving?

An aerial photograph of San Francisco at dusk. The city skyline is visible with numerous skyscrapers, including the Transamerica Pyramid. The waterfront features the Port of San Francisco with several piers and a ferry boat in the water. The sky is a mix of dark blue and orange from the setting sun.

Cities all over the world have
issues that need to be addressed...

The church community is realizing it needs to
lead in addressing those needs.

But sometimes the Christian
community struggles with
how to best work with the city
to meet those needs.

We asked ourselves the question:
“If our **churches** were suddenly to **disappear**
from our **cities**, would anyone **care** or **notice**?”

When we got really honest with ourselves,
we didn't love the answer.

Based on that reality,
Love Modesto
was born.

As the momentum grew from Modesto to other cities,
Love Our Cities
was born.

So, what does
Love Our Cities
do?
